REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the prior art of record teach or suggest a device for blow molding comprising a mold in three parts, two half-molds for the body of a container and a mold base wherein the movement of the mold base is controlled by the movement of at least one half-mold or actuating means, wherein connection means comprise a connecting rod whose ends are provided with coupling means having three rotational degrees of freedom so as to connect to the half-mold or the means for actuating the half molds and so as to connect it to the mold base, such that the mold base is not moved during parting or closing within a predetermined angular value of the half-molds and then moved when the half-molds are outside the predetermined angular value of the half-molds during closing or opening of the mold. The closest prior art (European Patent application 456866 A1) discloses a base mold that is moved by a third cam (90) and does not have the connection means with a connecting rod having three rotational degrees of freedom so as to connect the base mold to one of the half-molds or their supports as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
